Who are we

About the achievements of Quality Technology for Accreditation

The company has achieved distinguished achievements by obtaining many local, regional and international accreditations. These accreditations have enabled it to have a strong presence on the international and local scene in various fields, and its results were the company obtaining a (first-class) classification as a city services provider. Among these accreditations:

Acceptance from the Saudi Standards, Metrology and Quality Organization **SASO** and the Saudi Food and Drug Authority **SFDA**, enabling it to issue conformity certificates for products in accordance with **ISO 17065**, issue inspection certificates in accordance with **ISO 17020**, and issue ISO certificates in accordance with **ISO 17021**.

Accreditation in the field of inspection from the Gulf Accreditation Center **GAC** and the Saudi Accreditation Center **SAAC** to conduct inspection and inspection in accordance with the international standard. **ISO 17020** In addition, the company has acceptance in 12 Saudi Building Code **SBC** out of 13 regulations.

The first and only Saudi company in the Middle East to obtain accreditation for **calculating carbon footprint and carbon neutrality**

License from the National Center for Monitoring Environmental Compliance **NECE**, to prepare environmental studies, monitor and control the quality of environmental media and pollution sources according to the objectives of the Kingdom's Vision 2030 with the availability of the required competencies in the field of environmental management system **ISO 14001**

We also specialize in providing consulting services to provide integrated solutions for sustainability.

Chairman's Message

Ahmed Al-Maslamani

Believing in the Kingdom's Vision 2030 and achieving its goals to reach sustainability, we found that one of the most important steps in reaching these goals is ensuring the quality of work, efficiency of performance, and oversight and inspection of products, projects, and contractors to ensure achieving the quality of the outputs of the Kingdom's Vision 2030 projects. Hence the idea of establishing a Saudi company with international specifications to compete with the largest international companies and to be a pioneer company in applying the highest quality standards and international practices through ISO specifications and developing a Saudi cadre who understands the importance of innovating solutions and building systems and regulations that achieve quality assurance to achieve sustainability through monitoring and inspection work.

The most important pillars and strategic objectives on which the company was founded are:

- ❖ Verifying the safety of imported products and their compliance with Saudi specifications.
- ❖ Inspection and control of the work of the main sectors (transport, energy, construction, industry).
- ❖ Environmental compliance and adherence to environmental laws, regulations and standards in the field of environment and sustainability.
- ❖ Building a baseline for carbon footprint and carbon neutrality.
- ❖ Ensure compliance with the requirements of the Saudi Building Code.
- ❖ Ensure compliance with social accountability and verify community claims.
- ❖ Local, regional and international presence through the company's offices around the world.
- ❖ To be a house of expertise and consultation for governmental and official agencies.
- ❖ Training and qualification through establishing a training center concerned with all technical sectors

Vision & Mission

The main goal and direction of Quality Techno Certification

Vision

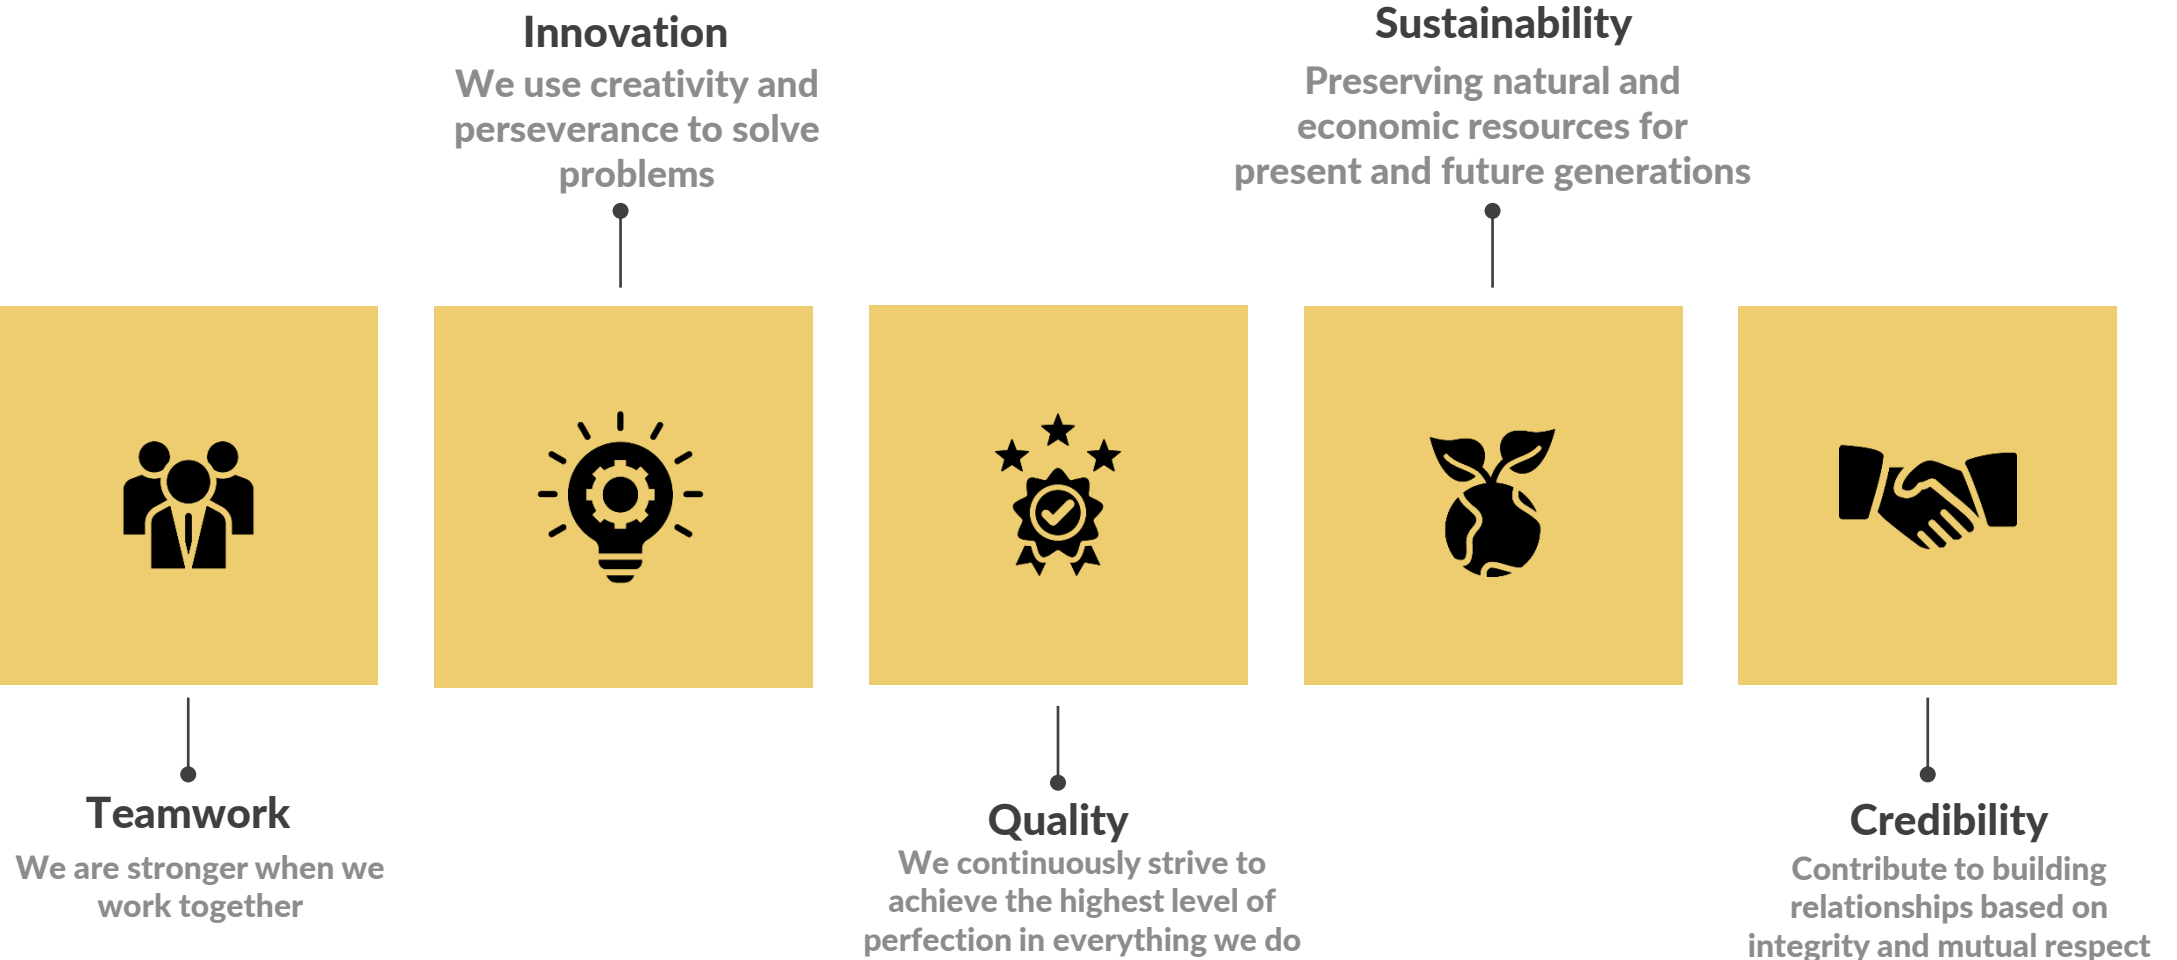

To be the world's leading Saudi body in the field of conformity assessment and inspection to ensure product safety and performance efficiency, adding real and sustainable value to our partners and customers, to achieve the Kingdom's Vision 2030

Mission

Providing conformity assessment and inspection services of the highest quality and professionalism in the Kingdom of Saudi Arabia and around the world by qualifying Saudi engineers. We strive to ensure product safety and performance efficiency by providing innovative solutions and sustainable value that meet the aspirations of our partners and customers. We work with dedication and diligence to proudly contribute to achieving the Kingdom's Vision 2030 and achieving sustainable development and prosperity for our partners and customers.

Core Values

The basic principles and beliefs of Quality Techno Certification

Objectives

most important goals of Quality Techno Certification

To be among the top 100 local companies selected from the Vision 2030 program to compete globally in the field of conformity certification and inspection.

Cooperating with Saudi universities and academic institutions to grant training courses and skills development programs for engineers and technicians in the field of conformity and inspection, as an initiative for effective participation in the labor market.

Strengthening and developing Saudi manpower to achieve our goal of employing more than 1,000 employees by 2025, and making Saudi youth form the nucleus of leadership within the company. We look forward to ensuring that the percentage of Saudi engineers reaches more than 95% by investing in advanced training and job qualification programs, while activating the training program ending with employment to ensure sustainable employment opportunities for participants.

Our branches around the world

Our company's presence at the national and global levels

Quality Techno Certification works according to local and international coverage with the presence of main and branch offices divided at the level of local and international regions to ensure the presence and application of the best modern technology

Conformity Certification

Issuing certificates of conformity for products imported into Saudi Arabia

Quality Techno Certification has a technical staff with long experience that enables them to study and review technical documents and evaluate them according to the highest standards of integrity and quality to obtain certification service in many electrical, mechanical, chemical, and civil fields.

- ❖ **Certification of truck, trailer and semi-trailer barriers**
- ❖ **Technical study for granting a model conformity certificate for lifting equipment**
- ❖ **Technical study for granting certificates of front and rear barriers for trucks and trailers**
- ❖ **Biodegradable Plastic Certification**
- ❖ **Certification of conformity on food imports**
- ❖ **Saber Certification Services**
- ❖ **G-Mark Certificate Issuance Service**
- ❖ **Certification of conformity on cosmetics**
- ❖ **Saudi Quality Mark Certification Service.**

Management Systems Certification

We serve our clients in different sectors

We obtained acceptance by the Saudi Standards Metrology & Quality Organization to provide audit services and certification of management systems for the fields of energy and quality. Our services cover all establishments in various sectors.

- ❖ **Energy Management System (ISO 50001)**
- ❖ **Quality Management System (ISO 9001)**

Saudi Building Code

We serve our clients in different sectors

Quality Techno Certification obtained the inspection accreditation from the Saudi Accreditation Center for Auditing the Saudi Building Code in 12 out of 13 regulations.

- ❖ Saudi Building Code - Steel Structures - **SBC 306**
- ❖ Saudi Electric Code - **SBC 401**
- ❖ Saudi Mechanical Code - **SBC 501**
- ❖ Saudi Code For Sanitary Extensions - **SBC 701**
- ❖ Saudi Fire Protection Code - **SBC 801**
- ❖ Saudi Code for Residential Buildings **SBC 1101 - SBC 1102**
- ❖ Saudi General Building Code - Architectural works. **SBC 201**
- ❖ Saudi Building Code Construction - Loads and Powers. **SBC 301**
- ❖ Saudi Building Code Construction - Construction. **SBC 302**
- ❖ Saudi Building Code – Soil and Foundations. **SBC 303**
- ❖ Saudi Building Code - Concrete Structures. **SBC 304**
- ❖ Saudi Building Code - Brick Structures. **SBC 305**

Training Center

We serve our clients in different sectors

Quality Techno Certification obtained a training license in multiple different technical tracks.

- ❖ Occupational Safety and Health Training
- ❖ Training on scaffolding and working at altitude
- ❖ Fire Fighting Training
- ❖ LCA Life Cycle Assessment Training
- ❖ OSHA
- ❖ Training and qualification of occupational safety for the oil and gas industry
- ❖ Operator training on heavy equipment and cranes
- ❖ Carbon Management Training (Accounts and Plans)
- ❖ LEED Green Building Training
- ❖ NEBOSH

Sustainability

We serve our clients in different sectors

Our sustainability services revolve around the following areas:

- ❖ Issuance of Environmental Product Declaration Certificates (EPD)
- ❖ HPD certification consulting services
- ❖ LCA Consulting & Studies
- ❖ ESG studies and reports
- ❖ Studies and Sustainability Reports
- ❖ Consulting services for the issuance of LEED certification
- ❖ WELL Certification Consultancy Services
- ❖ MOSTADAM Certification Consultancy Services
- ❖ EDGE certification consulting services
- ❖ Support for inspection and testing services

Carbon Management

We serve our clients in different sectors

Quality Techno Certification is the only company approved to make carbon calculations for companies, factories and products in the region. Our carbon services consist of the following.

- ❖ **Calculating the carbon footprint of entities, products and services**
- ❖ **Calculate carbon neutrality for entities, products and services**
- ❖ **Consultancy services to conduct a plan and strategies to reduce carbon emissions and reach carbon neutrality**
- ❖ **Technical solutions to reach carbon neutrality**

____ Verified By ____
**QUALITY TECHNO
CERTIFICATION**

Environmental studies and permits and environmental compliance

We serve our clients in different sectors

Providing environmental services in the preparation of environmental impact assessment studies, providing environmental consultations and studies, and preparing environmental plans such as environmental management plans, treatment and rehabilitation plans and waste management. We are also licensed to monitor and control the quality of environmental media and pollution sources. Environmental compliance services are divided into:

- ❖ Hazardous and Non-Hazardous Waste Management Plan
- ❖ Environmental impact assessment studies for all categories A, B and C
- ❖ Environmental monitoring and control
- ❖ Environmental Permit Renewal Studies
- ❖ Audit, inspection and audit for environmental compliance
- ❖ Environmental Management Plan
- ❖ Environmental Impact License
- ❖ Rehabilitation studies for contaminated and degraded sites
- ❖ Record of the environmental status of the facility

Operation & Maintenance

We serve our clients in different sectors

The company has received a first-class rating for providing MODON services and has several operation and maintenance services.

- ❖ Repair and maintenance of electrical distribution and control devices
- ❖ Repair and maintenance of versatile consumer machinery
- ❖ Repair and maintenance of water purifiers
- ❖ Repair and maintenance of engines other than cars, including (engines of ships and trains)
- ❖ Inspection and testing of materials, products, processes, devices and equipment
- ❖ Maintenance and operation of continuous and non-continuous environmental monitoring and monitoring systems
- ❖ Repair and maintenance of measurement, testing, monitoring and control equipment
- ❖ Events and entertainment facilities inspection activities,

Operation & Maintenance

We serve our clients in different sectors

The company has received a first-class rating for providing MODON services and has several operation and maintenance services.

- ❖ Repair of electrical equipment
- ❖ Repair and maintenance of electrical transformers for power transmission, distribution or specialized types
- ❖ Repair and maintenance of motors, generators and steam generating devices
- ❖ Repair and maintenance of pallets and containers used in shipping
- ❖ Repair and maintenance of electrical circuit wiring
- ❖ Repair and maintenance of electrical lighting equipment
- ❖ Repair, maintenance and storage of primary batteries and storage batteries

Inspection

We serve our clients in different sectors

Quality Techno Certification provides inspection and inspection services for more than 30 general specialties and more than 500 inspection items. They include the following domains:

Equipment Safety

- ❖ **Inspection, inspection and inspection of lifting equipment**
- ❖ **NDT**
- ❖ **Inspection, inspection and inspection of scaffolding**
- ❖ **Inspection, inspection and inspection of the safety of factory equipment and machinery**
- ❖ **Warehouses & Stores**
- ❖ **Industrial, mechanical and machinery equipment**
- ❖ **Inspection and inspection of electrical equipment**
- ❖ **Inspection and inspection of cables and fiber cables**
- ❖ **Inspection, inspection and inspection of elevators and escalators**
- ❖ **Inspection, inspection and inspection of heavy equipment**
- ❖ **Inspection, inspection and inspection of trailers and semi-trailers**
- ❖ **Inspection, inspection and inspection of petroleum products and liquefied gas transport trucks**

Inspection

We serve our clients in different sectors

Quality Techno Certification provides inspection and inspection services for more than 30 general specialties and more than 500 inspection items. They include the following domains:

Safety of specialized systems

- ❖ Petrol Stations
- ❖ Renewable Energy
- ❖ Cyber Security
- ❖ Telecom & Network Devices
- ❖ Bridges, roads, signals and parks
- ❖ Automated Fire Equipment & Fire Systems
- ❖ Offshore Inspection
- ❖ Compression equipment related to petroleum products and facilities
- ❖ Industrial Facilities
- ❖ Drilling Towers

Inspection

We serve our clients in different sectors

Quality Techno Certification provides inspection and inspection services for more than 30 general specialties and more than 500 inspection items. They include the following domains:

Pre-shipment inspection

- ❖ Inspection and inspection of cosmetics before shipment, packaging them with containers, and making sure that the lock is placed on the container
- ❖ Precious metals, stones, pearls and jewelry
- ❖ Inspection and inspection of pre-shipment products, packing them with containers, and making sure that the lock is placed on the container
- ❖ Inspection and inspection of food products before shipment, packing them with containers, and making sure that the lock is placed on the container

Inspection

We serve our clients in different sectors

Quality Techno Certification provides inspection and inspection services for more than 30 general specialties and more than 500 inspection items. They include the following domains:

Classification of maintenance and vehicle repair centers

- ❖ Workshop classification

Monitoring

- ❖ Examination and inspection of social accountability of entities

- ❖ Monitoring Services Inspection Documents

Environmental Inspection

- ❖ Environmental inspection of all types of pollutants
- ❖ Inspection and inspection of industrial waste
- ❖ Inspection and inspection of afforestation and organic farms

SIRI ASSESSMENT AND AUDIT

We serve our clients in different sectors

Quality Techno Certification is one of the audit service providers in the Future Factories Program from the Ministry of Industry and Mineral Resources according to the SIRI methodology.

Clients & Partners

We are proud of the success partners of Quality Technology and Accreditation Company

Clients & Partners

They form the basis of the success of our company. We are committed to providing the highest levels of service and quality to our customers, with a strong focus on meeting their needs and achieving their expectations. We build strong and sustainable relationships with our clients based on trust and transparency.
