About Quality Techno Certification

الهيئة السعودية للمواصفات والمقاييس والجودة Saudi Standards, Metrology and Quality Org.

المركز الوطني للرقابة على الالتزام البيئي National Center for Environmental Compliance NCEC

About Us

The company has achieved distinguished achievements by obtaining many local, regional and international accreditations. These accreditations have enabled it to have a strong presence on the international and local scene in various fields, and its results were the company obtaining a (first-class) classification as a city services provider. Among these accreditations:

Acceptance from the Saudi Standards, Metrology and Quality Organization SASO and the Saudi Food and Drug Authority SFDA, enabling it to issue conformity certificates for products in accordance with ISO 17065, issue inspection certificates in accordance with ISO 17020, and issue ISO certificates in accordance with ISO 17021.

Accreditation in the field of inspection from the Gulf Accreditation Center GAC and the Saudi Accreditation Center SAAC to conduct inspection and inspection in accordance with the international standard. ISO 17020 In addition, the company has acceptance in 12 Saudi Building Code SBC out of 13 regulations.

The first and only Saudi company in the Middle East to obtain accreditation for calculating carbon footprint and carbon neutrality (Third Party Inspection).

License from the National Center for Monitoring Environmental Compliance NECE, to prepare environmental studies, monitor and control the quality of environmental media and pollution sources according to the objectives of the Kingdom's Vision 2030 with the availability of the required competencies in the field of environmental management system ISO 14001

We also specialize in providing consulting services to provide integrated solutions for sustainability.
